

CONGRESS FOR DEMOCRATIC CHANGE-USA

PRESS RELEASE

The Diaspora arm of the Congress for Democratic Change, CDC-USA, publicly denounces and categorizes as a blatant fabrication, the claims by G. Emmanuel Roger that he is the Acting Chairman of CDC-USA. The CDC-USA is extremely disappointed that media institutions would give this impersonator the opportunity to reflect the CDC in such a negative light without seeking confirmation.

The National Executive Committee is taken aback by this vicious display of treachery and undermining by Mr. G. Emmanuel Roger towards the duly elected officers of the organization and the constitution of the CDC-USA. Mr. Rogers' erratic behavior, including character assassination of the leadership of CDC and CDC-USA, continued acts of threats on the lives of party's Executives, intimidation towards the general membership, and delusional proclamations have been of serious concern to CDC-USA. As a member of the organization, the utmost leniency was extended to Mr. Rogers including due process and additional intervention by respected senior members of the organization to no avail. Therefore, Mr. Rogers' membership and affiliation with CDC-U.S.A has been terminated effective January 2, 2011 due to constant and remorseless violation of the organization's constitution.

The Executive Committee is therefore issuing a final public warning to Mr. Rogers to immediately desist from making false claims about his position in the organization or any activities of the organization. Any future violation or infringement upon CDC-USA's organization rights will result in aggressive legal actions against him. The general public is further warned that anyone interacting with Mr. Rogers in his falsely claimed position of Acting Chairman of CDC-USA or as a member of CDC-USA does so at their own risk.

Meanwhile the Executive Committee of CDC-USA wishes to commend thousands of partisans and the Liberian people for the tremendous welcome accorded Ambassador Weah upon his return to Liberia on December 31, 2010. With such unwavering spirit of determination for change and an over whelming trust in the vision, goals and leadership of the CDC and its Standard Bearer; CDC-USA is once more reinvigorated in ensuring that the aspiration of our partisans and the hopes of the grassroots remain the driving force in determining our future activities.

Signed:

W.E.Saydee-Tarr
National Secretary General
CDC-USA

Approved:

Christopher D. Wisner
Acting Chairman
On behalf of the National Executive Committee of CDC-USA
